AN INSURANCE POLICY

In the event of fire is a mighty good thing to have on hand, and worth two in the bush of thinking about it, as many people do.

TECHNICAL ABOUT IT, but **NOT AS WELL**, and let us write you up a policy TODAY in one of our strong companies.

ISAAC S. JONES
Insurance and Real Estate Agent
Richards Building, 91 Main Street

BEAR IN MIND when placing your insurance for the coming year. THE FACT that during the last five years 32 insurance companies have either failed, reinsured or quit.

THE FACT that no company can afford to sell Gold Dollars for 90 cents or pay \$1.20 for every Dollar taken in and

THE FACT that we sell INDEMNITY for a mere

SPORTING NOTES

Frederick Fulton, the Minnesota giant, who says he defeated Jess Willard in an exhibition bout at Rochester, Minn., last spring, has the longest reach of any boxer, stretching 74 1/2 inches. He weighs in condition 220 pounds, and stands six feet four inches. Fulton has knocked out Jack Moran, Jack Lewis and Tim Logan, and also gave Arthur Polky a severe beating in ten rounds. His manager, Mike Collins, is grooming him for a clash with Willard for the championship.

William Perritt, known as Pol Perritt of the New York National League baseball team, was married recently by a team of celebration after pitching a game of the Giants to victory over the Lincoln Giants on Olympic field. His bride was Miss Florence Blake, 21, of 601 West 172d street. By the marriage Perritt becomes the brother-in-law of Jeff Zeigler, another pitcher of the Giants, who married another of the Blake sisters.

Spectacular Gridiron Battles Expected

Harvard-Cornell Will be Represented Saturday by Well Drilled Machines—Each a Product of Well Established Football School and Both Have Star Performers.

Two teams, which on paper and in the light of past performances are as evenly matched as ever were, two football eleven, meet in the Harvard Stadium Saturday afternoon, and if everything runs true to form, the game will be decided by the breaks in the luck.

The teams are those of Harvard and Cornell. Each is the product of a well established football school. Each possesses a star backfield man who classes with the half dozen really great backs of the year. Each has a heavy, powerful line. Each has a pair of reliable, if not brilliant ends. Each has a squad of backfield men in addition to its star, who are possessed of better than ordinary ability, and each has a fine string of both line and backfield substitutes.

Well Drilled Machines.

Fundamentally, each is a well drilled machine, built around a most versatile star, and the meeting of the stars, supported by their machines, should furnish one of the greatest and most spectacular contests ever witnessed.

Harvard's star is Eddie Mahan, the crimson fullback and captain. Cornell's star is Charlie Barrett, Ithaca captain and quarterback. Each is his team's best punter, best drop-kicker, best placement kicker, best broken field runner, best forward pass-handler and most elusive runner, and so closely similar have been their performances in past games and past seasons that there seems little to choose between them.

Mahan's versatile and brilliant work is well known to every local follower of the great gridiron pastime. Throughout the early games of the season his work has been of the type that last year led to his being unanimously selected on all-American teams, and only last Saturday he won the Virginia-Harvard game almost single-handedly by three well-executed goals from the field, one of which was from the 40-yard line.

Steady and Long Punter.

Barrett, because he has not often been seen in New England, is known

FINANCIAL AND COMMERCIAL

FLUCTUATIONS IN STOCKS.

Bethlehem Steel the Star Performer Rising 70 7/8 Points.

New York, Oct. 21.—Specialties bulged large on the horizon today, with more high records and violent fluctuations, while rails and other investment shares showed no change from their prevailing torpor. Bethlehem Steel was again the star performer, rising 70 7/8 points to 299 1/8. This represents an increase of 288 points (thus far this month and a twenty fold enhancement from its quoted price of a year ago in the unofficial market.

Among the other new records of the day were General Motors, which rose 26 to 370, Studebaker 13 1/2 to 194 1/2, Willys-Overland 8 1/2 to 255, Maxwell Motors 4 3/4 to 47 1/2, and United States Industrial Alcohol 11 1/2 to 123. Additional features of pronounced strength included fertilizer and allied shares, whose products are being utilized in the fulfillment of war orders. American Hide and Leather, Central Leather, Continental Can, Colorado Fuel, Great Northern Ore, Crucible Steel and a few utilities, notably Gas of Chicago, gains in this group ranged from 2 to over 8 points. Some of this advantage was relinquished in the customary profit-taking movement of the final hour. Bethlehem Steel closing at 288.

United States Steel regained its recent prestige by rising two points to 27 3/4, with 1 1/2 points of its record price, attained in 1909. Large lots of stock were taken with evident confidence, although the price of the stock at its best at the close. Coppers especially inspired, participated in the rise. American Copper, for instance, of the better grade denoted continued pressure. European selling, however, about the transcontinental, rounding and Erie, Rock Island was again heavily sold, falling 2 to 27 3/4 in connection with its doubtful financial status. Total sales amounted to 1,070,000 shares.

Further weakness in foreign exchange, particularly sterling and francs, gave especial point to the September foreign commerce figures, which disclosed enormous gains over the corresponding period for the two preceding years.

Bonds were active and moderately steady, with reduced foreign or future offerings. Total sales, par value, aggregated \$4,715,000.

United States bonds were unchanged on call.
